

## “Call Me Out On Safety” Pledge

I confirm that as a New Line Transport Contractor, I will sign the “Call me out on Safety” Pledge assenting my support and commitment to it.

As an active participant and recipient of this campaign I agree to:

**Lead by example** by performing all assigned tasks in a safe and efficient manner.

**Intervene** promptly when my fellow workers (knowingly or unknowingly) are putting themselves in harm’s way - I expect others to do the same for me.

**Intervene** promptly when one of my fellow workers (knowingly or unknowingly) is performing their task without following New Line Transport procedures - I expect others to do the same for me.

**Intervene** and approach my fellow workers with dignity and empathy, especially those who need help or are reluctant to ask for help - I expect others to do the same for me.

**Express** how grateful I am when a fellow worker approaches me and calls me out on safety. Having a clear understanding that they are doing this not only for me, but also for my loved ones at home.

**Take** a moment every day and through my actions (not my words) show my fellow workers that I care and appreciate them.

**Actively** work towards achieving **Zero4Life**
